Art Installation Application

Final Deadline for Art Installation Applications is April 15, 2007.

Things To Know Before You Apply

- There is a limited amount of open flat space available. If your project requires a large area of open and/or flat space, register early for the best chance at placement.
- This is a Leave No Trace event and there is a possibility of high winds, lightning, and/or rainstorms. You must design your project so that it will not drip, "shed", blow apart, or short out (electrical) when exposed to wind or rain.
- Your project may be assigned to an area that has no natural anchors for guy lines. If your project must be tied down against wind, assume you must use rebar stakes (with safety caps).
- The ground can be very hard in some spots and very soft in others, and your project may not be located on perfectly smooth flat land.
- Visitors may interact with your project in ways you did not intend. Dangerous areas or sensitive equipment not intended for public access/tampering should be physically blocked or guarded at all times.
- We reserve the right to remove installations from the event site.
- Art projects involving spark-producing flame will not be allowed at Dreamtime.
- Propane fire may be allowed as an element of your installation, provided that all safety requirements are fulfilled. These requirements are as follows: Your installation must be kept under constant supervision while the fire is on. The propane supply tank and the structure containing flame must be secured against accidental tipping. A working regulator with appropriate pressure rating must be installed on the propane supply line. Flammable materials must be cleared from the surrounding area such that, should your project tip over or flare up, the flame will not come in to contact with any combustible materials. You must secure an inspection by our fire inspector prior to operation of your project.

Art Installation Application Form

Name: _____
Address: _____
City, State, Zip: _____
Phone: _____
E-mail: _____

Art Installation Name:

Are you sending additional material via snail mail? (yes / no)

1) Enter a brief description for your project that you would like to see on the web-site:

2) Detailed physical description including dimensions, (L x W x H) construction materials involved and structural support (how you plan to display it):

3) Would you like your installation to be permanent on the Dreamtime site? (yes / no)
(if yes, your plans must be detailed and must you must accurately represent your project visually. Models, photos, drawings, video, etc. We will contact you to discuss.)

4) Describe the purpose and intention of your proposed work.

5) Are there interactive components in your project? How is it interactive? Is it meant to be enjoyed during the day or evening?

6) Describe how you plan to make your project weatherproof such that it will not drip, "shed", blow apart, fall over, or short out (electrical) if exposed to wind or rain:

7) Safety - Are there any potential safety concerns or health hazards associated with your project (due to things like project malfunction, operator error, propane fire, impact of rain or wind). If so, describe them and your plan for preventing accidents:

8) Environmental Impact - Does your project present any potential impact on the environment? If so, describe your plan to prevent such impact:

9) Rating - If your art installation was a movie, how would it be rated?

G PG R NC-17

(Controversy is not grounds to deny a project, but we do want the opportunity to consider the effects of such work and the need for suitable placement)

10) When do you plan to set up your project? Will you need early admission (before noon Thursday) for set-up and/or extended time afterwards for teardown?

11) Does your project require power? (yes / no) If yes, how will you supply power? (If you plan to use a generator please refer to Rules section for noise and safety restrictions.)

12) Bio-diesel fuel for diesel generators may be available, are you interested? (yes / no)

In addition to completing this form, you may also send sketches of the work to be registered via snail mail. The address is:

Dreamtime Art Registration
38270 Stucker Mesa Rd
Hotchkiss, CO 81419

**Dreamtime may have scholarship and grant funds or tickets available to those who would otherwise be unable to bring an art installation. Please fill out the grant and scholarship application.

Thank you for your submission! We will contact you soon.
